

Conventional Turner (m/f/d)

Conventional lathes · One-off parts and small batches · Single-shift operation

For more than 60 years, we have manufactured flanges and metal components. We are looking for new team members to operate our conventional lathes. Experienced professionals and entry-level applicants are welcome.

YOUR RESPONSIBILITIES

- Set up and operate conventional centre lathes
- Select and correctly use tools and clamping equipment
- Manufacture one-off parts and small batches from technical drawings
- Measure workpieces and check their quality
- Maintain the machines and keep the workplace clean

YOUR PROFILE

- Vocational training in metalworking or relevant practical experience
- Experience in conventional turning is an advantage
- Ability to read and understand technical drawings
- Confident use of measuring tools
- Independent working style and a willingness to learn

WHAT WE OFFER

- Working hours: Regular single-shift operation
- More than 60 years of experience in machining
- Thorough training and personal support during onboarding
- Secure employment in a friendly team
- Fair, performance-based pay with opportunities to develop

PLACE OF WORK

Miroslavská strojírna spol. s r.o., Brněnská 523/28, 671 72 Miroslav, Moravia, Czech Republic

APPLICATION

We would be pleased to meet you in person and discuss all details with you at our site.

Entry-level applicants are welcome and will receive thorough, practical training.
