

Machinist – CNC Turning & CNC Milling (m/f/d)

CNC turning and CNC milling · Fanuc · Two-shift operation depending on workload

We are looking for machinists in CNC turning and CNC milling. You will manufacture one-off parts and small batches on modern machines. Experienced professionals and entry-level applicants are welcome.

YOUR RESPONSIBILITIES

- Set up and operate CNC turning and CNC milling machines
- Read, adjust and test CNC programs
- Manufacture one-off parts and small batches from technical drawings
- Set up tools and measure workpieces
- Monitor production and record quality checks

YOUR PROFILE

- Vocational training as a machinist or relevant practical experience
- Experience in CNC turning and/or CNC milling
- Basic knowledge of CNC programming
- Experience with Fanuc control systems is an advantage
- Accurate, reliable and independent approach to work

WHAT WE OFFER

- Working hours: Two-shift operation depending on workload
- More than 60 years of experience in machining
- Thorough training and personal support during onboarding
- Further development in CNC programming
- Secure employment and fair, performance-based pay

PLACE OF WORK

Miroslavská strojírna spol. s r.o., Brněnská 523/28, 671 72 Miroslav, Moravia, Czech Republic

APPLICATION

We would be pleased to meet you in person and discuss all details with you at our site.

Entry-level applicants are welcome and will receive thorough, practical training.
